QUIET NORTH ZAPATA BUSY IN THE SOUTH

Also Orozco and Others Start a
New Revolution; Carbajal
Sends Troops to Check Zapa-
ta; Withdraws to the North.

Carranza Forces Move South On-
ly to Maintain Order; no Form-
al Arrangements As Yet for
Peace; Silliman Bears Terms.

MEXICO CITY, July 18.—John H. Silliman has arrived from Saltillo. It is believed he brings a Carranza proposal as to recognition of the rebel government immediately. If Carranza agrees to enter the city without force of arms. Fugitives from Cuernavaca, Tlaxcala, an advance a few miles from Mexico City, report a series of movements by the forces of Zapata. Many of the inhabitants of villages in the federal district are fleeing to the capital for protection, fearing attacks and outrages by the Zapata adherents.

The information came from various points in Mexico. Senor Jose Castellet, representative of Carbajal, spoke of the evacuation of San Luis Potosi as a manifestation of good faith by Carbajal towards the rebels.

Until the commission appointed by Carbajal reaches Carranza, Monday or Tuesday, no definite developments relative to change in government at Mexico City are looked for.

NEW REVOLUTION ON BORDER
DOUGLAS, July 18.—Gen. Alvarado occupied Guaymas at daybreak, according to advices today. Several hundred federal sympathizers have left Douglas within a week and are said to be assembling in the mountains. An outbreak is expected.

EXPECT CARBAJAL TO RESIST

SAN ANTONIO, July 18.—Nothing short of unconditional surrender of the federal government will be accepted by the rebels, according to Roberto Pesqueira, who is here enroute to Carranza's headquarters.

"Carbajal is not neutral," said Pesqueira, "he is a strong Huertista, his selection as president was in pursuance of a plan to export some sort of favorable compromise from us."

AS WASHINGTON HEARS.

WASHINGTON, July 18.—There has been no formal agreement between the factions in Mexico, but armistice is practically in effect.

Carbajal has decided to have Federal troops evacuate all points where rebel forces are concentrated to avoid further fighting. Carranza forces are moving south merely to be in position to maintain order in the territory immediately surrounding the capital.

GETS ANOTHER CHANCE.

WASHINGTON, July 18.—The New Haven is to have one more chance to avoid suit. McKeen's has agreed to a conference on Monday.

WITH THE BOXERS.

A Milwaukee promoter is angling for a Sailor Petroskey-Hob Moira bout to take place in the Cream City next month.

Eddie McGoory claims that Jimmie Clabby jumped into the pool that lost him (McGoory) the recent fight in Australia.

Mike Gibbons wants a \$5,000 guarantee to bat George Clipp in San Francisco. Nothing doing at that price, say the promoters.

Since joining the St. Louis Feds. Dave Davenport, the former Cincinnati pitcher, has been knocked off the mound five times in succession. The Feds certainly have a squad of wicked hitters.

Jake Daubert has put the crusher on the report that he has a hankering for Manager Robinson's job. The Brooklyn first sacker declares he has no desire to pilot a team so long as he is able to play every day.

BARDES' TESTIMONY NOT SUFFICIENT TO HOLD MRS. CARMAN. SAYS PROSECUTOR; MUST STRENGTHEN CIRCUMSTANTIAL CHAIN

Miss Elizabeth Carman and Edward T. Bardes testifying at coroner's inquest in Bailey murder case.

That the testimony of Edward T. Bardes, who swore at the coroner's inquest in the Long Island "mystery hand" case that he saw a blonde woman go to the window of Dr. Carman's office on the evening of the Bailey murder, fire a shot and then walk around the house and disappear, is insufficient to convict Mrs. Carman is the belief of District Attorney Smith, who has the case in charge. One of the most interesting witnesses at the inquest was Elizabeth Carman, ten-year-old daughter of the accused woman.

DOMINICAN AFFAIRS ARE MUCH MUSSUED; U. S. TAKING HAND

American charge d'affaires White, in the absence of minister Sullivan, to been active trying to prevent a clash near the capital. Following a successful uprising at Laramas, about 50 miles east of the capital, Vidi was making a triumphant march to the capital when met by White. The fact that white has behind him two powerful American warships probably had its effect upon the insurgent leader. At and rate, he agreed to an armistice for a few days. White and federal officers in San Domingo city communicated his demands to President Bordas over the wireless.

BASEBALL CHATTER.

This Speaker, who has been one of the leading clean-up wallpapers for several years, has found the climb into the 300 division a hard one this year.

The Chicago White Sox are a great home team this season. Of the 29 games played on their own lot the Sox have won 25 and lost 11.

Chillicothe is leading and Paris is trailing in the Ohio State league race. It always was a considerable distance between Chillicothe and Paris.

Charley Herzog of the Reds and Mabel of the Yankees are leading the National and American leagues, respectively, in the art of base-stealing.

Lange, Fiske and McGuire, the trio of speedy pitchers with the Chifed, are all Chicago sand-bottlers and no one of the three ever played in regulation company before this season.

Charley Carr's "come back" stunt looks to be the genuine article. The former American leaguer is killing the ball and putting up a fine game at first for the Indianapolis Feds.

Manager John McGraw now picks the Chicago Cubs as the one team able to put up a real fight against the Giants for the National league pennant.

HINDUS INCLINED TO BE UGLY; ARE TOLD THEY CAN STARVE

VANCOUVER, July 18.—After swearing in 200 special police tonight the immigration authorities went aboard the Komagata Maru and ordered the captain to remove his ship outside the three mile territorial limit. Guarded by police, the captain proceeded to get up steam.

The Hindu passengers are in mourning mood. The government has supplied them with provisions for the return trip, but informed them that if they interfere with the captain they will be refused all further supplies and allowed to starve in the harbor.

PINAFORE'S ARRIVAL ATTENDED BY LARGE DEGREE OF SUCCESS

Cast of Y. M. C. A. Production
Presents the Best Entertainment
Seen in District in Many
Years; Individuals Excellent.

"For he is an Englishman." H. M. S. Pinafore's arrival in the port of Bisbee was an auspicious occasion. On schedule time it sailed into the harbor, cast anchor, and gave the people of Bisbee one of the best entertainments ever seen in the district. Home talent it was, but home talent of a character which would make the listeners forget the dwarfed ones and the halting spaces in the sheer joy of the production as a whole and piecemeal.

For Pinafore, last evening at the Y. M. C. A., was well played. It reflected credit on each and every one of the cast, as well as on the director, Arthur H. Ten Broeck.

The love affair of Josephine, the daughter of Captain Corcoran of H. M. S. Pinafore, provided Gilbert and Sullivan with a theme which has never grown old to the thousands of people who have seen the piece and listened to its varied and pleasing music.

"Love levels all stations," is Sir Joseph Porter's reasoning when seeking the hand of the captain's daughter. Well sometimes—but it all depends upon the amount of leveling necessary for in the end when Josephine, through an accident of birth, was found to be the daughter of only a poor sailor, the mound was too steep for the Lord of the Admiralty to level off.

Of the variety and extent of the music too much can not be said. That it still attracts those who have seen it many times before is proof enough of its stability. Of the lines, lost cues and shattered entrances considered, a similar estimate could be made. They carry themselves to a very great extent, though this is not to be taken to mean that the Bisbee case did not make the most of them.

Owing to a short stage, and but two entrances the exits and entrances were necessarily slow. All of this considered, however, the cast was excellently trained, and gracefully and accurately made the most of one of the really famous and lasting comic operas.

As to personalities, it would hardly be just to attempt an historically critical paragraph for all were good. The whole so hinges upon each and every one, there being no stars in the sense understood today, that all contribute to the success of the production.

In passing, however, the keen appreciation of the part of Sir Joseph Porter, which character was played by Dr. George D. Craig, was one of the extremely bright spots of the evening.

Stage assurance, a good voice, letter perfect in his cues and lines the part took on that feeling of professionalism when the audience ceases to sympathize and literally moves forth to enjoy a weird and extremely good characterization brought to life out of

the early part of the nineteenth century.

Of the ladies in the cast Miss Kehoe as the Captain's daughter, Miss Howe as Little Buttercup, the Portsmouth bumbast woman, Miss Watson as Hebe, and Miss Meyer as Penelope, all were good.

Miss Howe's impersonation of Little Buttercup was excellent. Seemingly cast for the part with a natural grace of movement, an endless store of the smile which always goes across the "foots," and a tripping vivacity, convinced her hearers that she was at home.

As Penelope, Sir Joseph's first agent, Miss Meyer was more than good. She carried the part in good form throughout.

Last but not least comes Miss Watson. In fact Miss Watson's delineation of the part of Sir Joseph's cousin, Hebe, with the First Lord's acting, from a technical and critical standpoint, were easily the particular bright lights of the evening. In singing the refrain from Sir Joseph's song, "and so do his sisters and his cousins and his aunts," with the attendant acting, Miss Watson took the audience away from her own personality and made the part actually live.

Of the supporting cast of men Thomas B. Dorrick, as Ralph Rackstraw, was good. His singing was easy and his scenes with Josephine more than worth while. J. B. Eldon, as Dick Deadeye, P. G. Hagaman as Captain Corcoran, R. Bateman as Bill Bobstay, J. H. Carew, Sidney L. Brawley and Joseph Young were all integral parts of the huge success of the entire play.

The dancing of W. R. Tonkin and Mrs. Tonkin, Bert Warner and Mrs. Warner, Miss Louise Renaud, Miss Howe, and Ralph Brown, was also one of the features of the entertainment.

POLICE SHOT POLICE IN CHICAGO STREET BATTLE AT RAID

CHICAGO, July 18.—Wiping out the last remnants of Chicago's segregated district is promised as the result of the battle Thursday night in which one detective was killed, two policemen and two citizens shot.

The beginning of two investigations into the tragedy were marked by State's attorney Roynes's charge that the police version of the shooting was untrue.

The police had arrested two squads of detectives and plain clothes men who did not recognize each other. They lost their heads. The State's attorney also declared that the facts had been suppressed. He sent his own men into the district to make a complete report.

DAIRYMEN'S WHITE LIST IS PUBLIC

Dr. Herendeen, City Health Officer, Makes up the White List; General Conditions of Milk Sold here are Much Improved.

Every Dairy Now Selling Milk Which Reaches Requirements in Regard to Percentage of Butter Fat; Supplementary List

THE WHITE LIST.
Warren Ranch
Sam Medigovic Dairy
San Jose Dairy
Portage Lake Dairy
G. A. Hardt Dairy

The above is the official "white list" of milk dealers, prepared by the city physician Ralph E. Herendeen, from the recent investigations which the state bacteriologist and himself have been carrying on.

In speaking of the milk situation in the city of Bisbee, Dr. Herendeen said yesterday that each and every sample had shown a marked improvement over those taken at first. Every dairy, for instance, has improved the butter value up to the statutory requirements, according to the physician, and those dairymen whose names do not appear in the above list are left out for one of two reasons: either the sample of the product has not been returned or else the bacterial count in their sample was too high to allow it to pass.

Dr. Herendeen is very optimistic over the present conditions of milk. The improvement, according to him, has been very marked in the past several weeks or since the first sample was taken.

A second "white list" will soon be made and will be published at once. It will undoubtedly have the names of a great number of dairymen who do not appear above.

RICH STRIKE IS REPORTED ON 400 OF LEONARD MINE

The Leonard Copper mine at Glendon is to immediately put on a night shift, resultant upon the discovery of a rich body of ore on the 400 level and increased demand for sulphides from the Shannon Copper Co., which operates the Leonard mine, drawing from it a class of ore which it needs in making its smelter mixture at Clifton.

Foreman Murray of the Leonard was here yesterday gathering a force of men to make up the second shift which is to go to work at once at the property, where operation will be doubled.

Murray was reticent as to discussing the new ore found on the 400, but it is learned that it gives fine indication of making the most important body that has been located in Leonard development, and of bringing that property out as one of much commercial value, whereas it has been operated in the past more or less as a convenience proposition.

INJECT BUSINESS INTO THE SCHOOLS OF THE COUNTY SAYS HATELY

In seeking the support of the democrats of Cochise county, in the approaching primary, for the office of Superintendent of Schools, Erastus Hatley, one of the best known young men of the Warren district, is working on the platform of business efficiency in the administration of the county's schools.

That the candidate will give the schools of Cochise county such an administration, if elected, is granted by all who know his qualifications.

He has been a resident of the Warren district for the past eleven years, the last eight of which he has spent with the Calumet and Arizona Mining company in the accounting division. He is considered one of the most efficient men in the division and by his friends one of the best of men. In campaigning, the Bisbee man has

ENTERS RACE FOR CHICAGO JUDGESHIP

Miss Nellie Carlin, the present public guardian of Cook county, Illinois, has announced her candidacy for municipal judge of Chicago. The Democratic Woman's club of Chicago has endorsed her and will give her its support. Miss Carlin is a pioneer woman lawyer of Chicago.

SWEARS TO MURDER OF MINE GUARDS BY UNION MEN, ARKANSAS

FT. SMITH, Ark., July 18.—The bodies of two mine guards were found in the woods near Prairie Creek mine today. The men participated in the battle with the miners Friday at the Blanche-Denman mines.

According to affidavit of L. C. Thomas, himself a mine guard and participant in the battle, he and six other employees left the mine while the fighting was at its height and sought to break through the attackers. The seven were captured, taken to a log house in the woods and held for hours, when two state officers arrived.

Then one of the union men shot John Haskin. As he fell, a shot was fired at Clarence Slesberry and a second bullet went into his body as he fell.

HUERTA REMAINS IN MEXICO ANOTHER DAY -SHOWING NO WORRY

PUERTO MEXICO, July 18.—Unwillingness to leave behind any friends who want to accompany him into exile, has resulted in postponement of Huerta's departure for at least a day. With continuous disregard for his enemies in the interior, who would shove him off Mexican soil if able, Huerta shrugged his shoulders and laughed at the difficulties which force him to remain in his country another 24 hours.

Most of the members of his party showed much disappointment because they could not get out before tomorrow. Especially did the young women display dissatisfaction. For most of them the trip means pleasure in European cities and they desire to hurry affairs.

Huerta spent a dull day, the greatest break in its monotony being a call on the captain of the German cruiser Dresden. A small crowd gathered to watch him but there was no evidence of emotion other than curiosity. Huerta went over the side with the requisite number of sailors at the rail but there was no salute. Anything resembling formality was lacking.

General Hernandez, who has been governor of Puebla, arrived late on a special train. General Corona, an active supporter of Huerta, and several other officers are expected to reach here before he departs. It has virtually been decided that Huerta and Blanquet will go to Jamaica on the Dresden, but it is equally certain the British cruiser Bristol will carry no passengers. The departure of Huerta and party may be delayed several days. Carbajal has refused the use of Mexican gunboats, saying he deemed it unwise to use them for such purpose, but stated the government would pay for the use of any vessel Huerta might charter.

been into Douglas, Courtland, Glendon and in other parts of the county. Later he will make even a more extended visit to the various parts in the county.

"I will give the schools a business administration," said Hatley in speaking of his candidacy. "The schools should be taken out of the realm of mere theory and put on a plane of business efficiency in every way. That is my platform and, if elected, I will see to it that it is carried out."

ZANE SELLS INTEREST IN GOLD STRIKE

Wm. Truax Acquires Bond Calling for Payment of \$10,000; Is First Money Transaction Attending Flats Excitement.

Well Known Mining Man to Arrive Today to Take Charge of Work at Flats; Development Campaign Will be Started Soon.

Oliver Zane yesterday signed bond and option in favor of William Truax under which Zane disposes of his interest in the Truax & Zane seven claims at Juniper Flats, about 50 miles from Douglas, where there has been much excitement recently.

It is understood that the bond calls for payment of \$10,000 to Zane, distributed over a period of a year. He receives a small payment down, another one in thirty days and a larger payment in a month later. Ore taken from the discovery claim to date belongs to Truax and has sufficient value to meet first payment.

It is said that with Zane out of the property Truax will be able to push development much more rapidly than Zane had been favorable to going. Also he will be able to incorporate a company, to which Zane was opposed. W. J. Martin, for some years associated with the Murphy mining interests, at one time superintendent of the Poland and later of the Reed mines, is expected to arrive here this evening from Prescott. He comes to take charge of work at Juniper Flats and to direct a campaign of development. It is understood he will be interested with Truax.

Just what plan of development will be pursued will be determined following inspection of the property by Martin. However, it was said yesterday that immediate sinking and drifting were contemplated. So far the work has been confined to crosscutting and stripping at the surface. All of this work has shown ore carrying many strikers rich in gold.

BIG INCREASE AT ONCE IN ACTIVITIES THROUGH SONORA

H. M. Adams, a well known mining man in northern Sonora, arrived in the city last evening. He is to be here several days, purchasing supplies for his prospecting camp, which has now on, below Hermosillo.

"I believe our troubles in Mexico are now over," said Adams. "The fact that Greene Cananea has accepted the Villa-Galloa pronouncement and guarantee of protection in the fullest manner, is the best of assurance. In view of the attitude of the big company following the recent strike, it is certain that it must have been fully convinced that Mexican affairs in the north were permanently straightened out, or no order for resumption of operations would have been made. Greene, as is well known, does not have to operate."

"I am out yone of a number of independent operators in Sonora who feel large encouragement over the turn affairs have taken. I think it is conservative to say that within a month there will be witnessed a 50 per cent increase in activities of all kinds in Sonora and that within six months there will be a tremendous boom under way there."

TO PRESS TREATIES.

WASHINGTON, July 18.—The president has notified the senate foreign relations committee that he wishes it to press ratification of new peace treaties signed with 26 foreign powers, to be significant next week.

STEAMER FIRE CONTROLLED.

NEW YORK, July 18.—Fire which broke out on the steamer Manoscha shortly after the vessel with 300 passengers on board left for pier for Boston early tonight, was extinguished quickly with the help of municipal fire boats.
